TFAP1.3 Anti-Bullying Policy

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.

TFAP1.3 Anti-Bullying Policy

1. Introduction:

In our school we believe that every child and adult should be able to work and study in a safe and nurturing environment. Coming to school should be something to look forward to. It is the responsibility of everyone to make sure that our community understands that First Academy is a school built on mutual respect, understanding and equality and that bullying will not be tolerated at any time. Bullying is wrong and damages the well-being of individual children. We therefore do all we can to prevent it, by developing a school ethos in which bullying is regarded as unacceptable. If bullying does occur (please see definition below) students, staff and parents should feel confident that they can report the behavior and that swift action will be taken. We aim to make all those connected with the school aware of our opposition to bullying, and we make clear each person's responsibilities with regard to the eradication of bullying in our school.

2. Definition:

Bullying is "the intentional hurting of one person by another, where the relationship involves an imbalance of power. It is usually repetitive or persistent, although some one-off attacks can have a continuing harmful effect on the victim." Anti-Bullying Alliance

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.

3. Types of bullying:

Bullying can be:

- Emotional – being unfriendly, excluding, tormenting
- Physical – pushing, kicking, hitting, punching or any use of violence
- Verbal – name calling, sarcasm, spreading rumors, teasing
- Racist – taunts, graffiti, gestures
- Gender – unwanted physical contact or abusive comments based on gender
- Cyber – all areas of internet such as email misuse, mobile threats by text/calls, misuse of associated technology such as cameras.

Bullying of any kind is unacceptable. If bullying does occur, children should report the incident to a member of staff who will deal with it promptly and effectively.

It is important that time is spent not only with the victim but also considering the reasons why a child has shown negative behavior.

As a school community we need to work together to ensure that everyone feels safe and protected. It is important that all adults set a good example in and around the school. The way we work with one another and our own productive and supportive relationships will provide a model for children. In all relationships we should set a good example in the way we address each other, the language and tone that we use and the response that we expect. Respect around the school for one another and an ethos of care and consideration is part of building a culture which is resistant to bullying and ensures, where it emerges, it is dealt with firmly and fairly.

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.

4. Roles and Responsibilities:

4.1 The role of pupils:

- Pupils are expected to treat others fairly and with respect.
- Pupils are encouraged to tell anybody they trust if they are being bullied, and if the bullying continues, they must continue to let people know.
- Pupils must report any incidents that they witness of bullying, even if they observe as a bystander.
- Pupils are encouraged to stand up assertively and safely to a bully and are provided with a range of strategies on how to do this, whether they are being bullied or are a bystander.

4.2 The role of parents and families:

- Parents should set a positive example to all pupils at all times.
- Parents who are concerned that their child might be being bullied, or who suspect that their child may be the perpetrator of bullying, should contact the school where appropriate action will be taken and the situation monitored. Parents will be informed of the outcome of an investigation and their support may be necessary.
- Parents have a responsibility to support the school's Anti-Bullying Policy, actively encouraging their child to be a positive member of the school.

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.

4.3 The role of the Principal:

- It is the responsibility of the Principal to implement the school anti-bullying strategy and to ensure that all staff (both teaching and non-teaching) are aware of the school policy and know how to deal with incidents of bullying.
- The Principal ensures that all children know that bullying is wrong, and that it is unacceptable behaviour in this school. Anti-bullying events and promotions throughout the year will highlight and support why this behaviour is wrong.
- The Principal sets the school climate of mutual support and praise for success to reduce the likelihood of bullying. When pupils feel they are important and belong to a friendly and welcoming school, bullying is far less likely to be part of their behaviour.

4.4 The role of the teacher:

- Teachers take all forms of bullying seriously, and intervene to prevent incidents from taking place.
- If, as teachers, we become aware of any bullying taking place between members of a class, we deal with the issue immediately. This may involve counseling and support for the victim of the bullying, and punishment for the child who has carried out the bullying. We spend time talking to the child who has bullied: we explain why the action of the child was wrong, and we endeavor to help the child change their behavior in future. If a child is repeatedly involved in bullying other children, the child's parents are requested to attend the school to discuss the situation.
- Incidents are recorded according to the school guidelines and procedures.

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.

5. Procedure for Dealing with Reported Incidents:

The school behaviour policy should be followed in cases of reported incidents. This includes:

- Initially a no blame approach will be taken and the effect of bullying on all parties will be discussed.
- The class teacher dealing with reports in the first instance
- Parents of both parties will be informed at an early stage
- The Key Stage Leader dealing with reports where the behaviour continues
- Referral to an appropriate member of the Senior Leadership Team where interventions have failed to prevent repeats of the behaviour – the 'stages' will then be followed as outlined in the school's behaviour policy.
- Depending upon the nature of the incident, children can be referred to the Principal at any stage.

Opportunity is given for both victim and bully to express their point of view and time taken to find out what motivates the behaviour. Parents of both the victim and the bully will be kept informed and any actions taken by the school should be explained to them. At all times it is stressed that bullying is not acceptable and that action will always be taken.

Vision: To be a center of educational excellence preparing students to be both lifelong learners as well as leaders of tomorrow.

Mission: To become a community of learners developing within our students active creative minds. We stress the total development of each child; spiritually, morally, intellectually, socially, emotionally, and physically. Therefore, we aim to provide a healthy, safe, caring and supportive environment.
