Circular: Introducing the Salama Parent App

EFIA/CIR-012/2024-25   **Date:01/05/2024**

Dear Parents,

Greetings…….

We're excited to introduce the **Salama Parent App,** designed by the **Integrated Transport Center (ITC)** of Abu Dhabi. This app is a centralized platform that connects schools, school buses, parents, and bus supervisors. Its primary focus is on ensuring the safety of our precious children during their daily commute.

Key Features:

1. **Track School Bus Progress:** Stay informed about your child's bus location in real-time. Receive notifications when the bus is approaching your designated stop.
2. **Add/Update Child's Profile:** Keep your child's information up-to-date within the app.
3. **Receive Bus Arrival Notifications:** Get alerts when the school bus is about to arrive at your child's stop.
4. **Send/Receive Messages:** Communicate directly with other parents and bus supervisors. Discuss any concerns or share important information.
5. **Report Child Absences:** Notify the school if your child won't be taking the bus on a particular day.
6. **Data Safety:** Rest assured that your child's data is encrypted during transit, and no information is shared with third parties.

Download the App:

- **Android Version:**
  https://play.google.com/store/apps/details?id=ae.gov.itc.salamaparent
- **iPhone Version:**
  https://apps.apple.com/us/app/salama-parent-app/id1548251043

Let's work together to create a secure and reliable transportation experience for our little ones.
