## CIRCULAR FOR GRADES GRADE 2 TO 9 PARENTS

### Bareq Arabic Learning Platform

EFIA /CIR-038/2026-27

Date:09/06/2026

Dear Parents,

EFIA School is pleased to announce the successful implementation of the **Bareq Arabic Platform – the Global Arabic Learning Platform for Non-Arabic Speakers.**

This AI-powered platform, aligned with CEFR and ACTFL standards, offers engaging lessons and real-time analytics to support both classroom and independent learning. It represents a significant step forward in enhancing Arabic language learning and digital education at our institution.

The integration of the Bareq platform reflects our strong commitment to adopting innovative educational technologies that boost student engagement, improve learning outcomes, and strengthen Arabic language proficiency.

Students from Grade 2 to Grade 9 will benefit from the platform throughout the academic year. Each student will receive their own individual account on Bareq. Through this account, Arabic teachers will assign tasks tailored to each student's level.

On the home page, students will find a daily tasks section listing all current assignments. Clicking on any task will display the specific components assigned for that lesson. Students can track their progress by clicking on the progress link in the sidebar menu. This section provides a detailed overview of their results, including scores for each test and completion status for every lesson component. Additionally, students can access user guide videos within their account to learn how to navigate and use the Bareq platform effectively.

We look forward to the positive impact this innovative platform will have on our students' Arabic language acquisition and overall learning experience.

Thank you.

Regards
