

REF: EFIA/PLCY -030/2024-26

Issue Date: 15/04/2024

PURPOSE:

To ensure that the school clinic obtain informed consent from parent or legal guardian prior to giving health care intervention /treatment to their child.

POLICY STATEMENT:

It is the policy of Emirates Future Int'l Academy to provide sufficient information enable to the parent or legal guardian to make an informed decision about whether to consent or to refuse the intervention or the treatment.

SCOPE:

Consent applies to all intervention/treatment outlined in this policy

TARGET AUDIENCE:

This includes the school nurse, physician, parent/ legal guardian, student and the school staff.

RESPONSIBILITY:

- The admission staff is responsible for obtaining General Informed Consent for treatment.
- The School Nurse is responsible for obtaining specific informed consent for vaccination, medication. School infection control, notification of head lice, and other general illness or injury.

PROCEDURE:

Every student has the right to receive intervention/treatment after the parent or legal guardian has received sufficient information about the risks and benefits or taking or not the intervention or the treatment.

Consent is valid only when the seven critical elements of a valid consent are present

- a) Competency – refers to the decision making ability of the consent giver.
- b) Capacity to make treatment decisions –refers to the intellectual ability to reach the reasoned choice about treatment
- c) Disclosure of information –the health care provider informs the consent giver of the details of the intervention, probable risks and benefits, treatment alternatives and consequences of refusing treatment.
- d) Specificity – must be specific for the procedure to be performed
- e) Opportunity for questions and answers –questions answered in an understandable fashion, to allow time to integration of the information and to avoid rushing the consent process.
- f) Voluntariness – must be free of misrepresentation of material information
 - The parent or the legal guardian may ask to sign a form documenting their consent to or refusal of intervention or treatment.

REF: EFIA/PLCY -030/2024-26
