

10/8/2020

Dear Parents,

This is a short brief on how we will operate for First term 2020-2021. As a school we are ready to welcome our students back on campus, we are making adjustments in school to assure the social distancing all over school is implemented. The school will take the maximum measures of safety, starting by Temperature checks before entry of building to 1.5 meter distancing between students in classes and daily sanitizing for all school facilities, hand sanitizing in all classrooms and corridors, a Health Inspection and Wellbeing Team for random daily checks and support, in addition to many other safety procedures throughout the day that we will inform you about in details in coming days.

The school would prefer the return of student physically on campus, and having said that we will be taking a little bit of time to help students, parents and staff adapt to the new routines and safety practices. Therefore, we will have the student to return gradually for the first couple of weeks to be confident and get familiar with the new adaptations (we will send the scheduled dates of return next week).

The school understands that some parents would prefer to start Distance Learning at beginning at least till they are more confident on their return on campus. For those students the school will deliver full distance learning methods. But we hope that you trust us that we will take all necessary measure of safety for our community.

In some stages the school may use a blended approach if needed (On Campus & Distance Learning) and that to make sure that the students are always ready in case there was any need of operating fully virtual.

Students who use Bus service, the Bus will be operating on 50% Capacity to assure social distancing on bus (only siblings can sit next to each other) and all students temperature will be checked before boarding on Bus. Please make sure you have registered for Bus service and paid to assure the seat. We looking forward to welcome you all back soon and we will update you with more details next week.

**\*NOTE:** students who have not registered and paid yet will be removed from system as we are building the plan on confirmed student's numbers. Final payment registration date 20/08/20.

**Stay Safe**

**Administration**
