**CIRCULAR (Gr. 1)**

Dear Parents,

As per the National School Health Screening Guidelines, **Hearing Screening Test (Audiogram)**, **Complete Blood Count (CBC)** and **Fluoride Varnish Treatment** are recommended for all students of **Grade 1**.

These preventive health measures are essential for the early identification of hearing concerns and anemia, as well as for promoting good oral health. Together, they play a significant role in supporting your child's overall development, learning, and communication.

In accordance with these guidelines and as part of our school's commitment to student well-being, we kindly request you to complete the following:

1. **Hearing Screening:** Take your child for a **Hearing Screening Test (Audiogram)** at any licensed audiology center or hospital.
2. **Fluoride Treatment:** Ensure your child receives a **Fluoride Varnish Treatment** at a licensed dental clinic.
3. **Blood Test:** Complete a **CBC (Complete Blood Count) blood test** at any licensed medical center or hospital.
4. **Report Submission:** Submit the physical hard copies of the **Hearing Screening report, CBC report, and Fluoride Treatment record** to your child's class teacher on or before **10<sup>th</sup> September 2026**.

Please note that all information submitted will be treated with strict confidentiality and used solely for school health assessment purposes.

We greatly appreciate your cooperation and commitment to your child's health and well-being. Together, we can ensure a healthy and supportive learning environment for all our students.

With regards,

**Rafia Zafar Ali**  
**Principal**
