**CIRCULAR – [Gr. 9 (Girls)]**

Dear Parent,

**Subject: Mandatory Anemia Screening for Grade 9 (Girls)**

As per the **National School Health Screening Guidelines**, screening for anemia is recommended for **all Grade 9 (Girls)**. In compliance with this, we kindly request you to provide a **hard copy of your child's Complete Blood Count (CBC)** test result. This data is essential for the effective identification and further support of students who may require medical attention related to anemia.

You are kindly requested to:

1. Take your child for a **CBC test** at any licensed health care center.
2. Submit the **CBC report (hard copy)** to the class teacher on or before **10<sup>th</sup> September 2026**.

**Note:** If a CBC was already performed at a licensed healthcare facility within the last 3 months, the report is valid and can be submitted.

**Please note that these blood test results are mandatory and must be documented in your child's official student health file.**

We appreciate your continuous cooperation in helping us maintain a healthy and supportive environment for our students.

With regards,

**Rafia Zafar Ali**

Principal
