Dear Parent,

Subject: Plastic collection drive

In line with our continued commitment to sustainability, Leaders Private School is proud to support the “Purging Pestering Plastics Project 2025” launched by the Emirates Environmental Group (EEG). The campaign will run **from 5th June to 25th June 2025**, calling upon individuals and communities to take action against plastic pollution.

This is our chance to take responsibility, inspire change, and be part of a collective movement toward a cleaner planet. We urge all students and parents to join hands in this meaningful initiative by contributing clean, used plastic items—such as plastic bags, bottles, cups, milk containers, and shampoo bottles—neatly packed and sent to the designated school collection points in the school.

Let's come together to reduce plastic waste and champion environmental responsibility - one piece of plastic at a time.

Your contribution matters. Your action inspires.

Looking forward to your valuable support.

With regards,

Sd/-
