

CIRCULAR NO . 12
CONSENT FOR UPLOADING STUDENTS EVENTS/ACTIVITIES
ON SCHOOL SOCIAL MEDIA PLATFORMS

Dear Parents ,

Greetings !

As part of ensuring the overall development of our students, this school conducts many internal as well as external activities as per the event calendar published for each academic year. Also, our students take part in many inter school competitions & programmes quite often. However, we understand that these activities/events/programmes are not reaching out to all the stakeholders effectively in a timely manner and hence the efforts put up by the school are neither visible nor appreciated by the stakeholders. The school social media platforms will be able to serve this purpose in a positive manner if all the school and students programmes are uploaded on it on a daily basis/timely manner.

Hence, it has been decided that all the school and students activities will be uploaded on the school social media platforms such as School website, Instagram, YouTube, Facebook & Twitter in a timely manner to give wide publicity among its stakeholders.

Considering the acceptance of most of the parents for uploading the event contents of their wards on the school social media platforms, the school will automatically publish those events/activities without any further confirmation from them. In case any parent does not wish to upload their ward's pictures and videos on the school social media platforms in which they are a part, such parents are to then inform the same to the respective **Cycle level heads** through the below E mail IDs(with details of the student - admission number, name , Grade & section) no later than **30 May 2025** mentioning their non-agreement. If no communication has been received till the above date, the school presumes that all the parents are in agreement with the school for uploading the event contents of their wards on the school social media platforms and no concern will be entertained thereafter.

All the events & contents will be duly vetted for its cultural acceptance and appropriateness by a dedicated team before being uploaded.
