CIRCULAR No. 29
PARENT'S GUIDE :
NATIONAL DRUG PREVENTION PROGRAMME (SIRAJ)

Dear Parents,

Greetings!

This is to inform you about the program launched by the Supreme National Committee for Drug Prevention, UAE titled "SIRAJ Program" – the National Drug Prevention Program, that targets all segments of society. In alignment with this initiative, the Ministry of Education has emphasized the importance of promoting awareness and preventing drug abuse among students, and has advised schools to conduct various activities within the school community.

To maximize the positive impact of this program, parents are also encouraged to be actively involved in supporting and helping students by providing positive guidance. Therefore, we are sharing the Parent's Guide on Drug Abuse and Prevention, which provides valuable information on:

- The key pillars of the National Drug Prevention Program (SIRAJ)
- Increasing community awareness regarding narcotics and psychotropic substances
- Developing personal skills and values to enhance positivity and well-being
- Strengthening the role of families in contributing to drug prevention
- Supporting children in making safe and healthy choices
- Guidance on seeking help and information on rehabilitation services

We strongly advise all the parents to read the guide carefully and discuss its content with your children to reinforce positive decision-making and safe behavior. The school remains committed to ensuring a safe, healthy, and drug-free environment for all students, and we encourage parents to collaborate with us in this vital initiative.

Kindly note that the Parent's Guide is attached with this circular for your reference.

Best Regards

ANZAR ABDUL SALAM
