

### STUDENT COUNCIL- 2025-2026

School offers leadership opportunities to the students and shapes the young minds to brainstorm the ideas and execute in school community and external partnership. The council ensures the representation of students across all grades and its functions are based upon Parliamentary procedure. Student Council Members take up initiatives to organize programs which cater the needs of other students. The Wellness group is initiated by the Cycle-3 students in which students rise up to help the buddy group to ventilate their concern and issues and be the emotional supporter for the other students.

The School Parliament constitute the following student council members.
