

INCLUSIVE EDUCATION

Our School is committed to the regulations, guidelines and legal requirements that focus on inclusive practice in the UAE. We embrace the culture of inclusivity and providing high quality education to all the children in our school. However, ALN students are identified prior to the enrolment, during the enrolment or within a few weeks. Admission to ALN students are granted based on the availability of seats. We use several assessment tools to identify the challenges. As a result, the school community can support the students to bridge the gap to meet their requirements. Sometimes these assessments support further assessments and diagnosis from external specialists.

We recognize and pay particular attention to the provision for and the achievement of the following groups of learners:

- Additional Learning Need (ALN) Group
- Learners who are considered 'Gifted and Talented'
- Students who require Exam Access Accommodations.

We do this by providing support in a variety of ways, including in-class support and the provision of specialist interventions by Inclusion Team where necessary and Individualized Education Plan has been prepared under the leadership of Inclusion coordinator for identified students with the assistance of Subject teachers to meet the additional learning requirements of identified students. We also ensure that parents are involved in regular follow-up with the school regarding the identified needs of their child and the progress they are making with the Support of Inclusion Head and School Counsellor.
