

Introducing IT as the 6th subject (optional) Grade 10 CBSE

Dear Parents,

Greetings from GMS!

Kindly be informed that from this academic year 2022-23 we have introduced Information Technology as an additional optional subject for the CBSE board exams. Information technology will be the sixth optional subject that the students can choose for the board exam in Grade 10.

The advantage of taking IT as a sixth optional subject for boards is that, if a student fails in any one of the three compulsory academic subjects (i.e. Science, Mathematics, and Social Science) and passes in the Skill subject (offered as the sixth optional subject), that academic subject will be replaced by the Skill subject and the result of Class X Board examination will be computed accordingly.

The students who are not choosing IT for board exams will be writing board exams with the compulsory five subjects (English, Malayalam/Hindi/Urdu, Mathematics, Science, and Social science.) and will write a school based exam for IT.

Any student who is not confident about securing passing marks in Mathematics, Science, or Social Studies in grade 10 CBSE board exam may choose IT subject for boards in 2022-23.

Kindly tick the appropriate box and fill in the acknowledgment slip below and submit it to the class teacher at the earliest.

Acknowledgement Slip for option of IT for board exams in grade 10 CBSE exams.

I will be opting Information Technology as an additional subject for grade 10 CBSE board exams in 2022-23.

I will NOT be opting Information Technology as an additional subject for grade 10 CBSE board exams in 2022-23.
