

## Enhancing security and safety for all students KG to Grade 12

Dear parents

Greetings from GMS!

We are glad to inform you that the school management is putting in place systems for enhancing the safety and security of students in the school premises and in the school buses.

We are introducing **RFID card** for each student which needs to be tagged while entering and exiting the school buses as well as the school premises.

This way we will have accurate electronic data of all students' whereabouts while availing school services.

All students will be given new RFID cards soon and you are requested to pay **AED 50** for the same.

We look forward to your support and cooperation in this regard.

Kind regards

Gulf Model School
