

Exemption from in-person learning from October'21

Dear Parents,

Greetings from Gulf Model School

We aim to ensure the healthy and safe return to school for all students in October 2021 but in case your wards have any major health concerns kindly read the following carefully and comply accordingly.

Dubai health Authority has provided Guidelines which allows exemption from In person school learning for students with chronic medical conditions and for those who are on chronic medications. Please find attached the list of the medical conditions and chronic medications. Parents of students with these medical conditions and medications should provide medical certificate with prescription from the treating doctor. The school medical team will evaluate these medical reports and decide upon the mode of learning for the students. Kindly consider this as a priority, and send the medical details and prescriptions as early as possible to medical.reports@gmsdubai.ae

Regards,

Gulf Model School
