

Autism Awareness Week - KG 1 to Grade 8

Dear parents

Greetings from the inclusion department at GMS!

Creating quality inclusive education is one of the core principles at our school and we constantly endeavour to create awareness among school communities regarding the same.

The month of April is Autism awareness month and we plan to conduct myriad activities to foster understanding and acceptance of those with autism. The activities will be spread across grades KG 1 to grade 8.

We would like to encourage discussion at home about autism as we believe that families play a pivotal role in creating an inclusive world which is essential for our children as future world citizens .

Staff and Students are encouraged to wear blue on Tuesday (19.4.22) as it's the colour associated with autism awareness..

Thank you for your support as always.

Regards

Princiya Abdul Karim
