

Dear Families,

If we got to see the rainbow we got to put up with the rain - Dolly Parton.

We are all going through a phase of life where only human values can bring comfort and solace to the people around us. The pain and hardship that our dear and near ones are enduring is indeed very saddening. This is the time when we must offer a helping hand, a word of comfort or even a smile to brighten up a sad face.

As per the instructions and directives from KHDA, we have put e-learning at the top of our priority list and our teachers have been trained well to deliver effective lessons to benefit our children in the best possible way.

The session for Phase 4 started on March 16 and we are all set to start the sessions for phase 3 on 5th April 2020. The time table for the e-learning will be shared with your child before the sessions begin. It is mandatory that every child attends the e-learning sessions . We request you to encourage your child to be very regular, as would be expected in a normal school setting.

We do understand that in the initially, all parties -students, teachers and parents will face minor hurdles but our IT department is all ready to resolve the concerns. Since this is going to be for a period of three months, we require your support to make this very productive and informative.

Please be informed that we will be starting the e-learning for Phase 1 and 2, i.e. Kindergarten to Grade 5 from Sunday April 12,2020. During this period, it will be very helpful if one of the parents is available to help your child to cope up with the initial hassles of getting in line with the gadget formalities.

As many of the parents are working from home, we hope you will be able to guide the children initially.

Our teachers have devised methods that will make our students independent learners very quickly. We humbly request our parents to be patient and as always, the best will be offered to our students.

Attendance is mandatory and teachers will intimate parents in case there is recurring absenteeism in class. If for any valid reason your child cannot attend the class, kindly inform the concerned teacher.

Online assessment will be conducted regularly to measure the learning outcomes and help the teachers devise the next level of learning. Learning resources will be uploaded in the Orison portal and we request parents to help students download the same.

I want to sincerely thank you for all the support. I do understand the difficult time we are all in and school will always support you in the best possible way. Always remember to get in touch. Communication is the only way to resolve all concerns. I am looking forward to hearing from you all regarding e-learning and how the children are adapting to it.

School operational hours will be 8 am to 1 pm Sunday to Thursday and Saturday. Kindly get in touch with the IT department to resolve all issues regarding distance learning
