

READING PROGRAMME- GRADE 1 to Grade 5

Reading gives us some place to go when we have to stay where we are.
– Mason Cooley

Reading is an important part of the intellectual growth of children. We, at Gulf Model School, feel that a fresh approach will encourage our children to read more, and purposefully too.

With this aim in view, we are glad to introduce 'ReadTheory' for the children of Grades 1 to 5.

ReadTheory is a free online reading comprehension programme that assesses reading ability and builds reading comprehension by providing texts for students to read at the "just right" level and challenge them. It senses student performance and is able to adapt to the children's reading needs. ReadTheory is a standalone reading programme which makes differentiation easier for a classroom of students. It identifies each student's reading level and ensures progress in reading over a period.

It's web-based and usable on both desktop and mobile devices, so students can access their accounts wherever they are.

Our aim through this programme is to develop reading as a habit in the children's lives.

The class teacher will initiate the programme and invite students to join. We would request parents to kindly motivate children to actively take part in the same. There will be numerous awards, including the one for the Most Voracious Reader.

Looking forward to magical, exciting reading days ahead.

Warm Regards,

Gulf Model School, Dubai
