

WINTER BREAK READING CHALLENGE - GRADES 1 TO 8

“Motivation is what gets you started. Habit is what keeps you going.” – Jim Rohn

Dear parents,

The Reading challenge is a comprehensive programme to instill the love for reading among the students. When children read for pleasure, they get “hooked on books’ , they acquire, involuntarily and without conscious effort, nearly all of the “language skills”. This Reading Programme was started this academic year to keep an eye out for information on how to get involved among the grades from 1 to Grade 8. The resource for the Reading challenge will be the same - Online Reading Programme- READ THEORY and students who compute the maximum lexile score will be acknowledged.

Read Theory that was introduced to the students of phase 2 & 3 in the month of May and will be taken forward till end of February 2022.

There will be rewards on the completion of this challenge based on the highest lexile scores as below.

Enthusiastic Reader (First)

Reading Rock star (second)

Know it all (Third)

Students are required to complete reading comprehension passages in the READ THEORY challenge at home, so as to achieve the target of their lexile scores.

Teachers will be monitoring the students on their achievements and the certificates will be given in the 2nd week of every month. We request parents to motivate their children to read and take forward the challenge which strengthens their mental muscles.

Happy reading to be continued!
