HABITAT SCHOOL
AL JURF, AJMAN

Implementation of RFID and Student Bus Tracking System

Circular No: HB/AC/23-24/15 **Dated: 05/05/2023**

Dear Parents,
Greetings!

We are happy to announce that we have integrated the school bus tracking application **'Big Yellow Bus Pro'** into the Habitat Parent App.

Now you will get notifications about your ward's onboarding and offboarding in the school bus or school gate on your mobile once you install the **'Big Yellow Bus Pro'** application.

Go to the '**Locator & Navigator'** menu in the Habitat Parent App → Click on the Download button to download and install the **'Big Yellow Bus Pro'** App.

Once installed, re-open the Habitat App and then choose the Locator & Navigator menu to load the **'Big Yellow Bus Pro'** App.

Please find the user manual attached to see the features of the app.

Thanks and Regards,

Principal
Bala Reddy Ambati

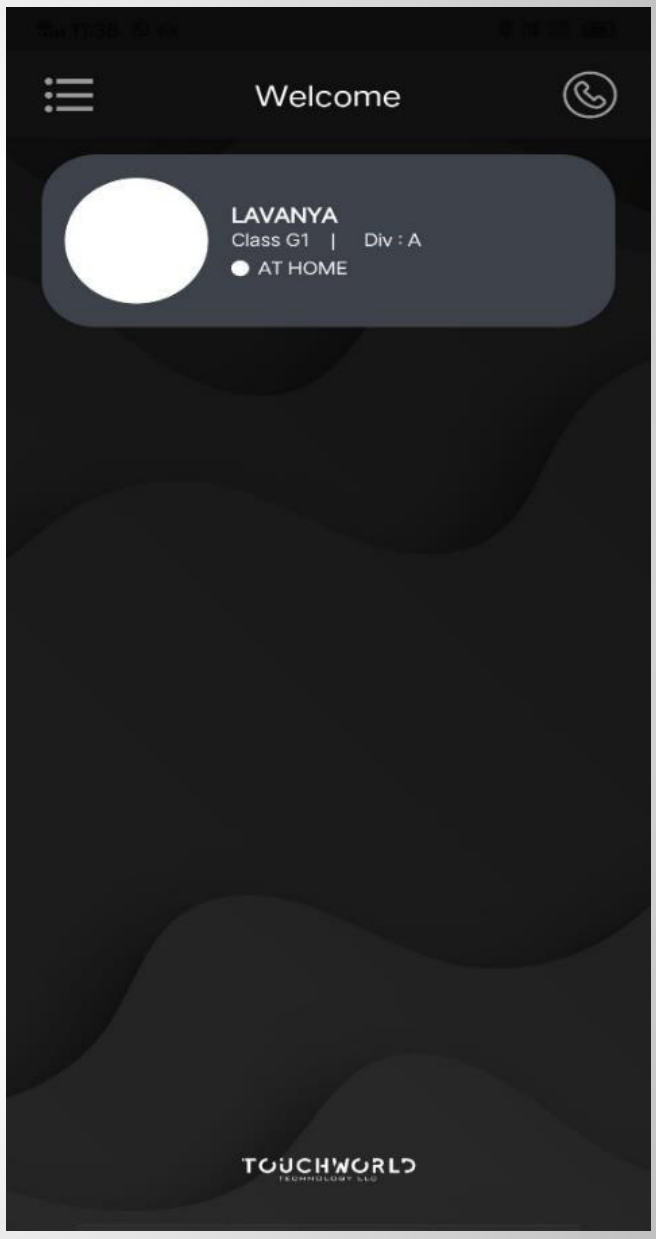
After login, navigate to the home page.

Here we can see the student details with current status of the student.

- Once student gets into the Bus, the status will be changed from 'AT HOME' to 'ONBOARDED'.
- Once students reaches the school, the status will be 'AT SCHOOL'
- If the student is own transport and passes through the school gate, the status will be "GATE – IN"
- The student goes out through gate, the status will be "GATE -OUT"
- If the student is absent, the status will be "ABSENT".



When we click on the student data we can see the tracking details by three categories like, STATUS, HISTORY and BUS INFO

Status – Tracking details of current day trip.

History – Search details by date.

Bus Info – View details of Driver, Bus Attender and School.
