AL JURF, AJMAN

Parent Guide on Drug Prevention for Grade 7 to 12
(In Collaboration with the Siraj National Drug Prevention Program)

Circular No: HB/AC/24-25/78

Dated: 21/10/2024

Dear Parent,
Greetings!

At Habitat School, the well-being of our students is our top priority. We recognize that protecting children from the risks of drug abuse requires a strong partnership between school and home. In support of this effort, and as part of the **Siraj National Drug Prevention Program** - a national initiative led by the Ministry of Education (MOE)—we are sharing a **Parent Guide on Drug Prevention**.

The **Siraj Program** aims to empower families by:

- **Raising awareness** about the dangers of narcotic and psychotropic substances.
- **Providing tools** to prevent drug abuse and strengthen family bonds.
- **Promoting values** that encourage happiness, resilience, and a drug-free lifestyle.

As parents, your role is vital in detecting early warning signs and fostering a safe, open environment where your children feel supported. The attached presentation will provide practical advice on how to guide your child and protect them from the dangers of drugs.

We have also attached a link to a Google Form to gather your feedback on the Parent Guide. Your input will help us assess the impact of the guide and improve future resources.

Together, through education and awareness, we can build a drug-free future for our children.

Thank you for your continued partnership in keeping our students safe and healthy.

Principal
Bala Reddy Ambati
