

# 2025 Grow Create Read

A Summer to  
Remember

# Dear Students,

As the warm days stretch ahead of us, it's the perfect time to explore new horizons, nurture our creativity, and make our summer meaningful and productive. While summer is a time for relaxation and fun, it is also a wonderful opportunity to engage in activities that can help us grow, learn, and contribute to the world around us.

This year's summer project is designed with a mix of fun and educational tasks that will keep you engaged throughout the vacation. These activities will not only help you develop new skills and hobbies but also allow you to make a positive impact on your environment and community.

The Habitat Schools Team

# Plant a Sapling

Your task is to plant a sapling in your home country or wherever you are spending your vacation. Take care of your plant by providing it with water and sunlight, and document its growth with photos or a short diary. When you return to school, bring back your photo album or diary to share your experience. This project will help you understand the importance of caring for the environment.

Happy planting!

You are also welcome to share the photo on your social media page tagging your school and adding the hashtag #Summer-Assignment 2025

Create Your  
Own Mini Business:

# Be a Young Entrepreneur!

Explore your creativity and try a small business idea by making something to sell. You can create physical or digital products!

Unleash your creativity and entrepreneurial spirit by creating something unique. Choose a project that interests you, such as artwork, handmade crafts, game development, jewelry, Baking, Cooking or any other creative endeavor. Gather the necessary materials, which might include art supplies, crafting materials, software, or tools. Spend time during your vacation working on your project. Ensure your creation is ready for the showcase when you return to school, where you will have a designated space 'Summer Market Place' to display and market your masterpiece. Think about marketing ideas and be prepared to share what inspired you and how you made your creation. We can't wait to see the amazing things you come up with! Happy Creating!

# Read and Review

Read at least two books of your choice. After reading each book, write a review summarizing the plot, discussing the main characters, and sharing your personal thoughts and opinions. You will need books, a notebook, and pens to complete this task. When you return to school, be prepared to share your reviews with your classmates and teachers. Happy reading and reviewing!

Make this summer a journey of growth, discovery, and fun.  
We can't wait to see the wonderful stories and experiences  
you'll bring back through this assignment.
