Hand Foot and Mouth Disease Awareness

Dear Parent,

We would like to bring to your kind attention about the importance of adhering to the measures to prevent the spread of Hand Foot and Mouth Disease.

Hand Foot and Mouth Disease (HFMD) is a contagious viral infection. Good personal hygiene is important to prevent the spread of the disease.

Kindly go through the Educational material set by the Emirates Health Services to ensure your safety and measures to be taken if someone gets infected.

Thanking you,

With regards

Dr. S. J. JACOB (Principal)
