## LIFE SKILL CLUB

The Life Skills Club is a dynamic, student-led initiative aimed at equipping students with essential skills for personal growth and real-world success. It focuses on practical abilities often not covered in traditional academics but crucial for everyday life, careers, and responsible citizenship.

Key Objectives are to enhance students' communication, teamwork, and leadership skills. To promote critical thinking, decision-making, and problem-solving abilities. To foster emotional intelligence, self-awareness, and stress management. To teach practical competencies such as financial literacy, time management, goal setting, and basic home and health care. To encourage community engagement, social responsibility, and respect for diversity.

Vision of the club is to empower students to become confident, capable, and compassionate individuals prepared to thrive in all aspects of life.

This club is open to all students who are eager to grow personally and support others in doing the same. Through a supportive and engaging environment, the Life Skills Club encourages lifelong learning beyond the classroom.
