## SEWA CLUB

### **Social Empowerment through Work Education and Action**

The SEWA Club is formed to enhance the quality of character among school students by encouraging values of service, empathy, and responsibility.

The primary objective of the SEWA Club is to help students develop their social, emotional, and leadership abilities by providing ideas and opportunities to interact with communities and real-life situations.

The club is a platform to help students develop and inculcate a service-oriented instinct.

SEWA Club is a great way for students to gain practical knowledge, empathy, and sympathy in the essential areas of life. By providing and supporting activities focused on community welfare and personal growth, the SEWA Club fosters a sense of purpose and social responsibility among students.
