

19/05/2024

Dear students,

We're excited to announce upcoming programs organized by the Science Department on **May 27th, 2024**. These events will take place during the **zero period** in your classrooms.

**For Grades 1-4:**

**"Toys from Trash"**

Create unique toys using recycled materials from home. Students will showcase their creations, explaining the materials used and the process of making them.

For your reference:

Innovation from trash(toys from trash)

**For Grades 5-7:**

**"Sustainable Governance"**

Students will step into the role of governors from various countries, delivering speeches on sustainability initiatives within their hypothetical nations.

**For Grades 8-10:**

**"STEM: Trash to Treasure"**

Engage in STEM creativity by crafting projects from recycled materials. Students will present their creations, detailing the materials used, the construction process, and the scientific principles involved.

Warm regards,

Science Department
