"Innovate, Inspire, Impact"

CIR NO 31/10.10.2024

Date:10/10/2024

Dear Parents and Students,

We , the **Science Department** is excited to announce the launch of a **Vegetable and Medicinal Plants Garden** at our school as part of our commitment to promoting sustainability, environmental awareness, and healthy living. The activity is scheduled for **October 15, 2024**.

Students are encouraged to bring medicinal plants (such as Tulsi, Hibiscus, Henna, Neem, Mint, Basil, etc.) or vegetable seeds and saplings for planting. They will participate in planting, nurturing, and maintaining the garden during designated periods.

We believe this initiative will not only beautify our campus but also foster a stronger connection to nature and a healthier lifestyle, enhancing students' understanding of medicinal plants and their uses.

Warm regards,

Principal

Dr. Saifudheen P Hamsa
