Update on Class Commencement on site

Dear Parents and Studnets ,

We hope this message finds you well. We would like to share an important update regarding our instructional delivery.

Our Readiness for On-Site Learning:

Our team has been working tirelessly to prepare the campus for a safe return. We are fully equipped and ready to commence classes, with all mandatory safety precautionary measures firmly in place. Our facilities have been adept to welcome students and our staff is trained to ensure a secure environment for all students.

Despite our full readiness to welcome students back to the classrooms, we must adhere to the latest regulatory guidelines. Due to current Ministry directives which do not allow school buses to transit at this time, **we will be continuing the online mode** .

We remain dedicated to providing a high-quality, engaging digital curriculum until school bus transit is permitted and we can safely transition back to campus.

Thank you for your continued support and understanding as we navigate these requirements together.

**Warm regards,
Dr. Saifudheen P. Hamsa
Principal**
