

Own Transport Dispersals

Dear parents,

The safety and security of our students are of utmost importance and keeping all the factors of practical implementations the school deems a new dispersal plan which will come into effect from 18th of April 2025.

In line with the new plan all the own transportation students (Grade 1 to 10) who go by car will be inside the school premise. Girls will be near the gate opposite to the main block shaded area (near the main reception area shade) and boys will be near the main gate shaded area (security guard area near admin block). The parents should park their vehicles outside the school premise and pick their wards personally from the assigned shaded areas.

The arrangement will ensure safe dispersal of students from the school.

Regards
Principal
