

## WORLD ENVIRONMENT DAY

Dear Students and Parents,

As we celebrate World Environment Day on June 5, 2024, The New Indian School Umm Al Quwain is proud to announce a new initiative aimed at fostering environmental stewardship and sustainability within our school community.

In alignment with the theme of this year's World Environment Day, "**Land Restoration, Desertification and Drought Resilience,**" we are excited to launch the "**Planting 1000 Trees**" initiative . This initiative underscores our commitment to environmental conservation and biodiversity preservation. We aim to enhance the greenery not only of our school campus but also the community of which we are part of .Our mission also aims at mitigating the effects of climate change, and create a healthier environment for generations to come.

The tree planting activity will not only contribute to the beautification of our campus but will also serve as a hands-on learning experience for our students, instilling in them a sense of responsibility towards nature and the importance of sustainable practices.

We are also proud to inform you that we are collaborating with Mall of UAQ for **Greenify our World** event on 7<sup>th</sup> June 2024 . Our students will take part in events like tree planting, environment and sustainability themed exhibition and performances . This highlights our commitment to our community and sustainable world.

We encourage all parents and students to actively participate in the tree planting event and to contribute towards achieving our goal of planting 1000 trees on campus. Your involvement and support are invaluable in making this initiative a success.

Together, let us reaffirm our commitment to environmental conservation and work towards building a greener and more sustainable future for all.

Thank you for your cooperation and dedication to the cause of environmental protection.

Warm regards,  
**Dr.Saifudheen P. Hamsa**  
Principal
