

Acceptable Use Agreement for Parents

The Acceptable Use Agreement is intended to ensure,

That students will be responsible users and stay safe while using the internet and other communications technologies for educational, personal and recreational use.

That the school systems and users are protected from accidental or deliberate misuse that could put the security of the systems and users at risk.

The parent and guardian are aware of the importance of online safety and are involved in the education and guidance of young people with regard to their on-line behavior.

The School will try to ensure that students will have good access to digital technologies to enhance their learning and will, in return, expect the students to agree to be responsible users. A copy of Student Acceptable Use agreement is attached to this form, so that parents/guardian will be aware of the school expectations of the young people in their care.

Parents are requested to read and understand the school policies which are published in the school website and parent portal. School has also published a Fair Processing Notice on the School website which explains how the school is handling the personal information.

Parents are requested to sign the agreement form below to show their support of the school in this important aspect of school's work.
