

## AIMS

We aim to build a school where achievement is evaluated and every child is able to develop and sustain an integrated multi-disciplinary environment that facilitates excellence in creativity, where learning is fun and value of each individual is evident.

We aim to provide International best Education practices appropriate to the cultural, intellectual and social needs of the students.

We set children high but achievable targets to reach the desired level where they identify the next steps for improvement. We offer an environment of togetherness enabling and infusing the pupil with secular human spirit of Brotherhood, Amity, Love and National Integration.

AIS strives to educate and mould our student community as integrated and impressive personalities to step into the competitive and challenging external world.

## OBJECTIVES

We believe “Education does not commence with Alphabets. It begins with Affection, Love, Care, Enrichment of mind, Sublimation of emotion and refinement.”

- We aim to build a school where achievement is elevated and every child is able to develop and sustain an integrated multidisciplinary environment that facilitates excellence in creativity teaching, where learning is fun and value of each individual is evident.
