

INCLUSIVE EDUCATION

Every student can learn, just not on the same day or the same week.

- George Evans

AIS is committed to promote the principles of inclusive education providing a right based approach to education for all students where an understanding of equity and inclusion is instilled in all aspects as per ADEK and CBSE guidelines.

We centre on providing quality education and learning experiences for all students regardless of their abilities or background. The school emphasis the importance of recognising and accommodating diverse needs within the mainstream classroom, providing support and resources to ensure all students can thrive in a nurturing and comforting environment where each identified child can acquire academic and social skills with a positive attitude and values.

We follow methods including observations, screening and assessments in identifying students who may require additional support. The support system is designed to cater to the diverse needs and requirements of differently-abled students. We recognise the importance of learning path and need for educators to adapt their teaching methods to accommodate different learning styles and needs. The school has appointed Special Educators to impart individualised assistance, support and guidance.

The physical infrastructure also ensures the school premises are accessible to such students. The school and parents work together for the implementation and success of the system of integrated education, special education and mainstreaming as practices related to inclusive education.
