SELECTION PROCESS FOR LEARNING AND TEACHING MATERIALS

PURPOSE

AIS sets broad content goals for teaching K-12 and has developed its process of selecting resources in rendering an effective learning practice to achieve the conceptual goals.

AIS is engaged with a multidimensional learning platform that focuses not only on the curriculum content in the primary resources but also on the visual and kinesthetic aspects of the concept.

These concepts enable AIS evaluation to choose quality resources encompasses to have a clear understanding and parallel to ADEK and CBSE standards.

- Child-centered presentation
- Technology-integrated resources
- Curriculum-based videos
- Simulations
- Teacher Manual and Question Bank
