

IIS/CIR/039/2021-2022
03/11/2021

Dear Parents,

“Greetings from IIS Family”

We have received an important circular on **Overcoming Online Gaming Downsides** dated September 27, 2021(Circular No. Acad-96/2021) from CBSE. In the new era of technology, online gaming is very popular with children because of the challenges it brings to the players which excite them and make them play more which can lead to addictions. The closure of the schools due to pandemic has increased the use of mobile phones and internet among children.

The circular contains an advisory which is for the parents to take necessary actions to overcome online gaming downsides on students. All parents are requested to check the below link and go through the circular and the enclosed advisory.
