## OFFICIAL CIRCULAR

# International Future Bootcamp in Finland

**Enrol Now!**

Dear Parents,

We are thrilled to bring an extraordinary international learning experience to the students of International Indian School.

We offer your child a unique opportunity to be part of a one-week, high-impact International Future Bootcamp in Finland designed to develop the right mindset, skills, and vision for the future.

The program is jointly developed by the University of Helsinki, the #1 university in Finland and Lifology, the Guinness World Record holding and Times Award winning pioneer in transforming students to be future ready global citizens. The program was launched in India by Mr. Erik af Hallström, the Consul General of Finland to India.

We know that this will be more than just a trip. This will be a transformational experience for our students.

A group of five young women, likely students, are standing in a snowy field. They are all wearing winter hats and jackets. They are holding Finnish flags, and the sun is shining brightly in the background, creating a warm and hopeful atmosphere.

# From Finland to the World

A transformative program by the Finland 2030 initiative. Under Finland 2030 comes Curriculum 2030 — a futuristic academic curriculum jointly developed by the University of Helsinki and Lifology. Curriculum 2030 is designed to empower the next generation, equipping them with the skills and knowledge to thrive in an ever-evolving future. Together, we are shaping a future-ready, globally competent generation, equipped with the right skills to thrive in an evolving world.

# 7 Reasons to join this program

## Visit Finland and Estonia

Two pioneering nations redefining the future through education, innovation, technology, and future-readiness.

## Stay at a UNESCO World Heritage Site

An amazing opportunity to experience Suomenlinna, a renowned UNESCO World Heritage Site, offering a rich historical and cultural immersion.

## Learning based on Curriculum 2030

The program is designed based on Curriculum 2030, a premier co-academic framework, making it far more than just a tour—it's a transformational learning experience.

## Exclusive Certification

A globally recognized certificate from the University of Helsinki Center for Continuing Education, giving your child an academic edge and valuable proposition to add in resume while applying to prestigious universities for Under Graduate courses.

## Visit Business and Innovation Centers

Students will visit Maria 1, the largest business center in Finland and a cutting edge innovation center in Estonia.

## Pitch to the Sharks

Students will prepare a business plan during the program and do a 'Pitch to the sharks', a team of successful Finnish entrepreneurs, during their cruise to Estonia.

## UN Sustainable City Development

The participants will build the model of a United Nations Sustainable Development City, based on the UN Sustainable Development Goals.

*Kimmo Lähdevirta, Ambassador of Finland in India, and Rahul Easwar, Chief Innovation Officer of Lifology, with the dossier of the International Future Bootcamp.*
