

IIS/CIR/029/2026-2027

07/05/2026

Dear Parents,

*“Greetings from IIS Family”*

We are pleased to announce **Sci-Fusion Fest 2026 – Innovate! Explore! Inspire!**, an annual **Science Exhibition for Grade I to XII**, where innovative students showcase their scientific and design skills. The event will be held on **9<sup>th</sup> June 2026**. We encourage interested students to start thinking about and working on their chosen projects from now on, giving them ample time to prepare.

**Kindly note the below Guidelines**

- Students are encouraged to develop **innovative working or static projects** aligned with **SDGs and COP28 initiatives**. Projects must be original, creative, and should not be the same projects presented for usual STEM exhibition.
- **Parents may also participate** in the competition along with their wards. Interested parents should confirm their participation via email to the respective Section Heads. Final participation will be confirmed after screening and selection of exhibits. A student can register only for one competition event (Group/Individual).
- The maximum number of participants in a Group event is four.
- The details of the competition and participating categories can be accessed through the link given below.

**Sci-Fest 2026**

- All registrations must be completed on or before **11<sup>th</sup> May 2026** through the Google Form link given below. Students are required to submit their exhibition ideas using this link.  
**Note: The link access will be closed after the deadline, and no further entries will be accepted.**
  - Primary (Grades 1 to 4)-<https://forms.gle/ppXS2Xf2tyBMN6927>
  - Boys section(Grades 5 to 12)-<https://forms.gle/DPWsxX5C6sUegmez5>
  - Girls section(Grades 5 to 12)-<https://forms.gle/kc3spSv5vBSPSCtQ8>
- The first level of screening for all registered participants will be conducted by the subject teachers from **12<sup>th</sup> May 2026** onwards.
- Further details regarding the final selection process will be communicated to the selected students by the subject teachers.
- The selected Project/Model through Sci-Fusion will be showcased at the **Gulf Medical University Exhibition 2026–2027** for Grades X to XII. Only shortlisted students will participate in the inter-school event organized by Gulf Medical University. Students are encouraged to develop and present innovative ideas for the school Interhouse event.

*Your cooperation in this matter is highly appreciated.*
