HABITAT WEB DEVELOPMENT PROJECT(GRADES 4-9) GUIDELINES

Dear Student,

As you know the school is constantly introducing exciting new platforms for you to showcase your technology skills especially in Computer Programming. The Habitat Web Development Project has been launched as part of the school Cyber Square programme. To complete this project you will receive technical support, training and research inputs to build and create your own website as a part of this project. The process of choosing the theme of the website is explained briefly in this guideline and your computer teacher will explain this to you as well over the course of this project.

Below are the guidelines, read them carefully and for any further clarifications ask your computer teacher.

- Every student must create their own website individually. Group work is not allowed.
- Website content should be based on a theme which comes under Habitat Hallmarks.

Please refer to Habitat Hallmarks: [Habitat Hallmarks](#)

Sample topics for website: [Website Content - Sample Topics](#)

Website should be static.

- A static website consists of a series of HTML files, each one representing a physical page of a website. On static sites, each page is a separate HTML file.
- Third party applications like wordpress, Wix, google sites etc should not be used.
- Technologies which can be used: HTML, CSS, Javascript.
- Any text editor (Sublime, Visual studio etc) can be used as a tool for web development.

Website should contain following sections

- A banner
- Home page
- Hallmark logo on which website theme is based on.
- Images (All the images should be saved in 'Images' folder)
- Website creator details (Student name, Class-Div, School name)
- First page of website must be named as index.html
- Footer

Footer content:

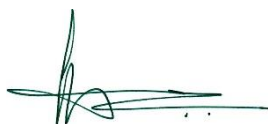

This website is created as part of the Web Development Project conducted by Habitat Schools in association with Cyber Square.

Habitatschool.org / tallah.habitatschool.org / cybersquare.org

(Make sure that you are adding hyperlinks)

- ❖ Total file size including HTML, CSS, image and other files should not exceed 10MB.
- ❖ Prohibited contents
 - ✚ Links to personal websites.
 - ✚ Links to personal social media pages
 - ✚ Personal email or contact details
 - ✚ Any inappropriate content (eg: no pornography, no profanity, nothing offensive to a person's gender, ethnicity, or religious beliefs, no references to alcohol, tobacco, or drugs)
- All websites must adhere to copyright laws. Any content, images, videos or templates must have been granted permission by the owner before using in the website.

Regards

Principal

Ms. Mariyam Nizar Ahamed
