**CAT 4 (Cognitive Ability Test) 2024-25**

Dear Parent,

Kindly note the following:

1. The Cognitive Abilities Test (CAT 4) is a diagnostic assessment that is designed to help students and their teachers understand how students learn and what their academic potential might be. It assesses how students think in areas that are known to make a difference to learning. This assessment does not require any prior preparation on the student's part. CAT4 can help in intervention, monitoring progress and setting targets for future attainment.

2. As mandated by the MOE, the school is conducting CAT 4 Exam for all the students of Grades 3, 5, 7 and 9. The MOE has mandated 100% attendance for this test. Hence we urge the parents that no child should be absent on the scheduled day of the test.

3. The CAT4 is administered in three parts and consists of questions assessing: Verbal Reasoning, Non Verbal and Quantitative Reasoning and Spatial Reasoning.
